

180° stack nest containers

Many happy returns

Containers securely stack when loaded and nest, by turning through 180°, to save valuable space on return transport.

Features & Benefits

Versatile

- Pallet compatibility; 600x400mm models stack 5 per layer on a 1200x1000mm pallet
- Ideal for use in fridges and freezers, ventilated models promote air flow, speeding cooling and helping to maintain a constant temperature.

HSHE

- Wide contoured handholds strategically placed to reduce back injuries.
- Smooth surfaces protect contents, promote hygiene and reduce the risk of personal injury.
- Withstands high temperature washing.
- Plastic containers do not absorb moisture or containments

Durable

- Strong and impact resistant.
- Containers typically stacked up to ten high carrying a unit load of up to 20 Kg.

Economic & Ecologic

- Nesting to 70% saves valuable space on return transport.
- Unlike disposable packaging, LINPAC Allibert containers can be used again and again helping our customers comply with packaging waste legislation, reduce carbon footprint and save money.

Smooth surfaces protect contents and promote hygiene

Bi-colour design provides visual identification of stacking position to prevent accidentally crushing contents

Wide and comfortable hand-holds

Can be printed with owner's logo and message

Containers stack securely when loaded and nest by up to 70% when empty

No other name carries so much weight
