

Secure Drum/IBC Store - DPU96-24PB

Backed by our 20 year structural guarantee*

The base of this bunded store is manufactured from 3mm mild steel sheet with RHS cross members and pressed ribs. The corner posts, shelf frames and main rails are all made from rolled hollow section. The back, sides and door are pressed from 2mm mild steel sheet (corrugated as required for additional strength) while the roof is pressed with suitable bracing.

The store is welded around the perimeter, fitted with crane lifting points (maximum 2000 kilos per lift point), double hinged doors and a fully seam welded sump fitted with full width plinths to eliminate ground contact.

The triple steel sliding doors, on one side, have been mounted on an easy glide track and above the sump is a push back loading system which consists of a 'sliding rail' device that allows the pallets to be pushed to the back of the unit. The unit is shot blasted before being painted.

*Details available on request

Size	8840mm L x 2800mm W x 3680mm H at highest point
N° of containers	96 x 205ltr or 24 x 1000ltr
Sump capacity	6100ltr
Shelf space	1350mm
Colour	Green RAL 6029
Tare weight	4400kg
