VAN VAULT

LOCKIT

Van Vault LOCKIT is a highly effective security system that protects van doors from opportunistic theft attacks and serves as a strong visual deterrent.

How it works

High grade stainless steel plates (manufactured to ISO2008) completely encase the vulnerable area around door locks, shielding your van from skin punctures to protect your tools and other valuable equipment. It can also be used as an instant repair kit for damaged doors.

Easy to install

LOCKIT is provided in kit form with clear instructions and applied in minutes with 3M™ VHB (Very High Bond) super strength adhesives. No drilling is required.

Depend on it

Every LOCKIT comes complete with a lifetime guarantee to replace any plate damaged during an attempted attack.*

* Guarantee is valid for the lifetime ownership of the vehicle, which expires upon sale of the vehicle. Activation must be made within 7 days of purchase.

**PROTECT
YOUR VAN,
TOOLS AND
LIVELIHOOD**

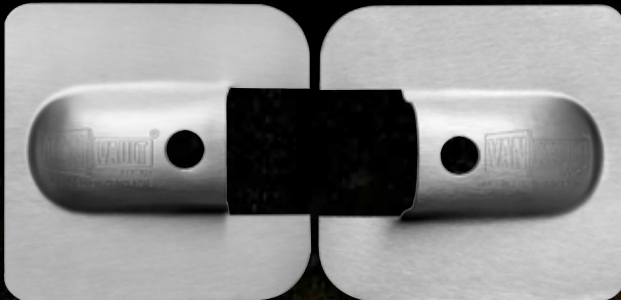

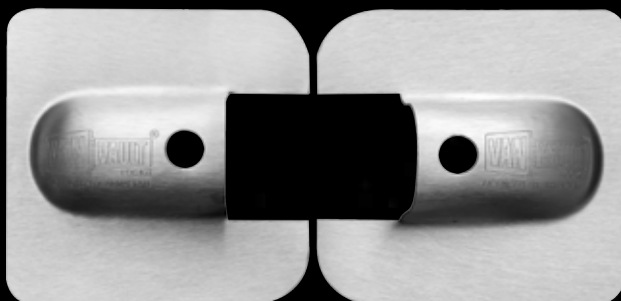

10 kits fit all

LOCKIT is available in 4 & 5-door kit versions to fit all popular manufacturers' vans including Ford, Mercedes and Volkswagen.

Each kit includes:

- Laser cut stainless steel plates
- 3M™ VHB™ adhesive pads
- 3M™ surface cleaner wipes
- Precision craft knife
- Full fitting instructions
- Lifetime guarantee*

QUICK FIT KIT

Which kit

See the back page of this leaflet for a full list of LOCKIT kits and the vans that they fit.
