

Plate Mate is designed to create extra space in the smallest kitchen. Pre prepared cold starters and desserts can be stored in a refrigerated cabinet or cold room or taken directly to the dining area.

These award winning trolleys, made from stainless steel with plastic and aluminum centre columns, can store a wide variety of plate sizes and shapes and even bowls up to 50mm deep in complete safety.

#### FLEXIBLE

Each side can be individually adjusted to take a wide variety of plate sizes.

#### SAFE

Plates or bowls are securely held with this unique patented grip.

#### PRACTICAL

Plate Mate allows 75mm clearance between plates.
