Kenilworth shelter shown with 4 optional Sheffield loops.

The Kenilworth is an attractive, curved cycle shelter, popular with schools and colleges and offers floor to roof level protection from the prevailing elements. This is a tough, robust structure with vandal resistant features.

- Zinc coated with a powder coated finish in a range of RAL colours - also available fully galvanised.
- Leg frames can either be bolted to the floor or grouted into the ground.

- Designed for use with our Sheffield and Loops and Racks, please see page 114.
- Initial shelters can be linked side by side to form longer runs.
- The Kenilworth is also available as a cycle compound, with or without security gates, please call sales for details.
- Supplied with a 5mm PETG perspex roof and sides.

CYCLE SHELTER INSTALLATION

- lockers
- workbenches
- euroslide
- cupboards
- cycle parking
- walkways
- smoking shelters
- trucks & trolleys
- canteen furniture
- pallets
- barriers
- additional

In addition to designing, manufacturing and delivering your QMP shelters, we can also install at your customers premises. For a moderate charge, our expert installation crews, backed by our professional project management team, will ensure your order is installed on-site at a convenient time and to the highest standards.

Our experienced and fully trained installation team:

- Work safely within current Health & Safety regulations and willingly comply with site rules and regulations.
- Work quickly to minimise disruption.
- Bring all necessary tools and equipment with them.
- Are courteous and friendly at all times.
- Carry ID if required.
- Ask for a signature to confirm complete satisfaction of work.

Our service includes:

- Moving the order from point of delivery to point of use.
- Unpacking the order from its protective transit packaging.
- Assembling all product supplied in flat pack format.
- Positioning the product in the correct place.
- Securing product to wall or floor as applicable.
- By prior arrangement, carrying out limited selected ground works.

If sited within 5 miles of the coast, we strongly recommend an additional weather treatment for the steel work. This is available for a modest additional charge.

A stylish wall mounted walkway ideal for connecting two buildings, available in three metre lengths. Constructed with a curved roof made from UV resistant polycarbonate panels mounted on a powder coated steel frame.

- Covered walkway that fixes to the side of a building.
- Modular design in three metre lengths.
- Stylish curved roof, made from UV resistant opaque polycarbonate mounted on a steel frame.
- Optional side panels made from tough clear perspex for improved weather protection.
- Must be bolted to 250mm thick concrete (fixings included).
- Delivered in knock-down form.

Connecting two buildings with a walkway

- Keeps people dry as they move from building to building.
- Prevents goods and materials from getting wet whilst in transit.
- Provides up to 97% ultra-violet protection.

Premier shelter shown with clear perspex sides.

If sited within 5 miles of the coast, we strongly recommend an additional weather treatment for the steel work. This is available for a modest additional charge.

The Premier Smoking Shelter has a curved roof made from translucent polycarbonate panels, giving up to 97% UV protection. The contemporary design enables employers to provide a modern and aesthetically pleasing smoking area away from main entrances and exits.

- Robust all-weather construction.
- Choice of clear perspex or powder coated steel perforated side & back panels.
- Adjustable feet for on-site positioning.
- More than 50% open area to allow rapid dispersal of cigarette fumes.
- Suitable for up to 9 people.
- Parabolts for surface mounting included. Must be bolted to 250mm thick concrete for stability.
- Site survey and erection service available.

Premier shelter shown with perforated steel sides.

TRADITIONAL SMOKING SHELTERS

Traditional shelter shown with bench seating and smoking bin.

If sited within 5 miles of the coast, we strongly recommend an additional weather treatment for the steel work. This is available for a modest additional charge.

- lockers
- workbenches
- euroslide
- cupboards
- cycle parking
- walkways
- smoking shelters

Recent legislation throughout the UK banning smoking in public places including the workplace has resulted in employers adopting new codes of practise to accommodate smokers. These shelters enable employers and establishments to create a designated smoking area away from main entrances and exits.

- Robust all-weather construction.
- 6mm clear perspex sides with choice of perforated sheet steel or perspex back.
- Adjustable feet for on-site positioning.
- More than 50% open area to allow rapid dispersal of cigarette fumes.
- Smaller shelters suitable for up to 9 people, larger shelters up to 12 people.
- Parabolts for surface mounting included. Must be bolted to 250mm thick concrete for stability.

- barriers
- additional

If sited within 5 miles of the coast, we strongly recommend an additional weather treatment for the steel work. This is available for a modest additional charge.

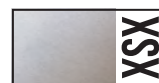

The vanguard of the next generation of smoking shelters. Here, strong design aspects are counter balanced with the functional requirements of a smoking shelter to produce a highly attractive structure that would grace the grounds of any corporate HQ.

- Attractive hexagonal shape.
- Greater than 50% open to comply with current UK legislation and to allow the rapid dispersal of cigarette fumes.
- Supplied in kit form with easy to follow instructions for on site assembly and installation.
- Clear Perspex sides for all round visibility.
- Standard unit holds 3-5 people at a time.
- Large unit holds 6-8 people at a time.
- Adjustable legs for on-site leveling.
- Must be bolted to 250mm thick concrete with parabolts supplied.

SUPREME SMOKING SHELTERS

If sited within 5 miles of the coast, we strongly recommend an additional weather treatment for the steel work. This is available for a modest additional charge.

A simple yet stylish, free-standing shelter suitable for providing cover for smokers. Constructed with a curved roof made from UV resistant polycarbonate panels mounted on a powder coated steel frame. As aesthetically pleasing as our Executive Shelter, the Supreme provides a more cost-effective option, which can also be used as a waiting shelter.

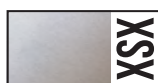

- A modular system, which is easily extended to accommodate any number of people.
- Greater than 50% open to comply with UK legislation and to allow rapid dispersal of cigarette fumes.
- Optional side panels made from tough clear perspex for improved weather protection, which can be mounted on either side.
- Must be bolted to 250mm thick concrete (fixings included).
- Delivered in knock-down form.

Also available in a ligature free option, please contact our sales team for further details.
