# STORAGE SYSTEMS

ergonomics

#### EXPERT SOLUTIONS FOR PROFESSIONALS

We focus on two product lines: technical furniture and storage systems. As professionals we recognize our customers' needs and know how to develop the best products to meet these needs. In addition to high quality and durability we put a lot of effort in product ergonomics and design. Due to the flexibility of our production we can offer customized solutions as well. Treston is an ISO 9001:2008 registered company.

### WELL CONSIDERED, EFFICIENT SMALL PARTS STORAGE

Good storage planning requires the combination of many elements. Treston offer a flexible and first class range of storage solutions to build an effective storage system. Our range of small parts cabinets, bin cabinets and many kinds of storage bins give many options to store a wide variety of items. Our storage bins are moulded from sturdy polypropylene, making them strong and stable in all normal conditions. Large label areas offer easy identification of contents, and bin colour options are provided for colour coding systems. Other options include cabinet turntables, stands and trolleys offering further flexibility. If you would like to learn more about our other products, please ask for the following brochures:

### visible storage cabinets

Cabinets, which combine a stylish industrial design with practical accessories to provide flexible and efficient small parts storage. Available in two cabinet sizes, 550 and 290 mm high. A compact storage system: one cabinet offers storage for up to 360 different items. Designed with drawer handles recessed within the frame for additional protection during transport. The cabinets can be wall hung, stood on the worktop or mounted on spacesaving turntables.

#### Series 550

The design combines the use of a strong, dark grey (RAL 7016) polypropylene frame and galvanised steel shelves in such a way that small drawers of crystal clear polystyrene sit securely within the framework. Self adhesive labels are provided for each drawer. Seven different alternatives at 550 high.

### visible storage cabinets

The overall size of the series 290 is half of the series 550. These cabinets take little space and give you effective storage. They can be wall hung or mounted on spacesaving turntables, stands or stood on the worktop.

#### Series 290

The design combines the use of a strong, dark grey (RAL 7016) polypropylene frame and galvanised steel shelves in such a way that small drawers of crystal clear polystyrene sit securely within the framework. Self adhesive labels are provided for each drawer. Seven different alternatives at 290 high.

### spacemiser

Perfect for storage and identification of thousands of small components. Such assemblies offer storage for up to 4.320 different items on a floor area of only 0,25 sqm.

#### Spacemiser 12-550

This unit includes a ball bearing base and dividing trays. The assembly holds 12 visible storage cabinets from series 550 in three layers. Each layer consist of four cabinets which are ordered separately. Load capacity 400 kg. Complete assembly's D  $\times$  W  $\times$  H: 500  $\times$  500  $\times$  1730 mm.

**Bench top spacemiser PTP-5**This unit includes a ball bearing base. It holds 2 visible storage cabinets from series 290 or 550 which are ordered separately. Load capacity 50 kg Complete assembly's D x W x H :  $310 \times 360 \times 300 \text{ mm} \text{ (series 290)}$  $310 \times 360 \times 560 \text{ mm (series } 550)$

### cabinets stand and trolley

Ideal for maintenance, production and storage areas etc. A practical and flexible storage system, with static and mobile options as required.

#### Single stand BS-550L

This assembly holds 4 visible storage cabinets of series 550, which are ordered separately. Free standing frame of epoxy powder coated in grey (RAL 7045). 3 aluminium rails are included. Load capacity 50 kg. Overall dimensions D x W x H:  $420 \times 760 \times 1585$  mm.

#### Double stand BS-550T

This assembly holds 8 visible storage cabinets of series 550, which are ordered separately. Construction as single stand. Load capacity 100 kg. Overall dimensions D x W x H:  $600\times760\times1585$  mm.

#### Trolley BT-550

This assembly holds 8 visible storage cabinets of series 550, which are ordered separately. Construction as double stand. With bottom shelf of 12 mm laminated board. Four castors Ø 100 mm, two with brakes. Load capacity 150 kg. Overall dimensions D x W x H: 600 x 760 x 1700 mm.

#### Series 550

The design combines the use of a strong, dark grey (RAL 7016) polypropylene frame and galvanised steel shelves in such a way that small drawers of crystal clear polystyrene sit securely within the framework. ### storage bin cabinets

Storage of larger items is easily arranged with storage bin cabinets, which are stackable vertically and may be wall hung or mounted on turntable assemblies. Two sizes of frames, five sizes of bins.

#### Storage cabinets

Comprises a grey epoxy enamelled steel frame (RAL 7045), colour bins with backstops and labels with protective shields. The crystal clear bins are of polystyrene (PS) and the coloured of polypropylene (PP). (The coloured bins of cabinet 0440 are of polystyrene (HIPS). Shelf bins are detailed on pages 12-13.

8 x cabinet 1640

8 x cabinet 0840

Compact storage systems for use in maintenance, production and storage areas. Space saving practical turntable assemblies are ideal for the storage and easy identification of thousands of components. Such assemblies offer storage for up to 1.792 different items on a floor area of only 0,64 sqm. When wall space is limited the turntable assembly, strategically placed, is a huge space saver. Load capacity 800 kg. Easy assembly without tools.

#### Retaining bars

Cabinets for mobile service and maintenance vehicles can be equipped with safety/retaining bars . Set includes 4 pieces.

#### A-400

Suitable for cabinets 0830, 1630, 0840, 1640 and 0440.

#### 16-300

This unit holds 16 Bin Cabinets of 300 mm depth, ordered separately. Load capacity 800 kg. Complete assembly's D x W x H: 700 x 700 x 1680 mm.

#### 16-400

This unit holds 16 Bin Cabinets of 400 mm depth, ordered separately. Load capacity 800 kg. Complete assembly's D'x W x H: 800 x 800 x 1680 mm.

1 x cabinet 1640-5

## high density storage cabinets

Cross dividers

Retaining bars

Castor set

High density cabinets can be used in maintenance areas, stores and many other locations. Robust construction. Load capacity 240 kg. Mobile storage option with castors if required. A compact storage system — one cabinet offers storage for up to 336 different items on a floor area of only 0,25 sqm. Each cabinet includes a grey epoxy enamelled steel frame (RAL 7035), shelf bins with backstops, labels and protective shields. Adjustable feet are provided for fine levelling. Load capacity for the cabinet is 240 kg/30 kg per shelf. Dividers are available separately. Details of the shelf bins can be found on pages 12 and 13.

#### Castor set PS-LH

A castor set is available to make the high density cabinet mobile. 4 castors  $\varnothing$  100 mm, 2 with brakes. Load capacity of cabinet with castors is 150 kg. Dimensions of cabinet with castors D  $\times$  W  $\times$  H: 410  $\times$  605  $\times$  980 mm.

#### Retaining bars A-605

Cabinets for mobile service and maintenance vehicles can be equipped with safety/retaining bars. Set includes 8 pieces. Suitable for cabinets 2440 and 4840.

### storage bins, picking bins

#### 1. Storage bins

Especially suitable for in-house material flow within factories and warehouses. Material: polypropylene (PP). Colour blue RAL 5022.

#### 2.Containers

Straight sided storage containers of 18 and 36 litres capacity are used for internal and external transport systems. These have integral handles and stack securely together. Material: polypropylene (PP). Colour blue RAL 5022.

#### 3. Picking bins

Picking bins are intended for repeated and rapid picking. All the inner faces are rounded and the front has a distinctive sloping design. Suitable for bench stand and bin rail. Material: coloured polystyrene (HIPS). Colour blue RAL 5015.

#### Bin rail 700

Bin rail of grey epoxy enamelled (RAL 7045) steel. With fixings for wall mounting. Rail length 700 mm. Picture of the bin rail, see page 14. Accessories: TRESTON stacking and picking bins. Stacking bins, see pages 14 and 15.

### shelf bins

Full width label with protective shield is easy to keep clean and change when necessary. The label is included in the price.

Corrugated base eases the picking of very small items.

The shelf bins are particularly suitable for use in small parts retrieval systems and mobile shelving.

#### Shelf bins

TRESTON shelf bins provide an ideal way of storing small/medium sized items in maintenance, production and stores. The shelf bins are particularly suitable for use in small parts retrieval systems and mobile shelving. Four sizes in depths of 300, 400, 500 or 600 mm. Bright colours are available for easy colour coding systems. A new grey colour has been introduced to this range. Crystal clear bins, even when using the index label provided, allow visible identification of bin contents. Corrugated base eases the picking of very small items. Full width label with protective shield is easy to keep clean and change when necessary. The label is included in the price.

#### Accessories:

Cross dividers, translucent plastic Labels, see page 14

Blanking piece FP6M, to produce flat surface for adhesive barcode labels on inside rear wall of bins.

#### Material

- PS = Crystal clear polystyrene: Temperature tolerance
- -40 ...+55°C.

   PP = Polypropylene:
  Temperature tolerance
  -20 ... +75°C. Withstands the
  effects of most oils, acids and
  solvents.

Individual bins can be sub-divided internally using dividers, ordered separately.

The shelf bins feature a molded in label holder on inside rear wall of bin and on the divider. Labels ordered separately, see page 16.

Blanking piece FP-6 M to produce flat surface for adhesive barcode labels on inside rear wall of bins. The adhesive labels are suitable for the smooth side of the divider.

#### Gravity flow rack DBS-808

For use in workshop, production and storage areas etc. An efficient way of storing small parts. By using inclined shelves, bins will move by gravity from the restocking to the picking side of the rack system. 6 storage shelves which may be adjusted for height and angle. It holds 48 stacking bins of type 1940 which are ordered separately. Constructed from epoxy powder coated steel, colour grey (RAL 7035). Adjustable feet are provided for fine levelling. Load capacities: 70 kg per shelf and 420 kg per stand.

Self size: 700 x 755 mm.

Overall size D  $\times$  W  $\times$  H: 825  $\times$  830  $\times$  1650 mm.

1940 bin, see page 15. Castor set, to order only.
